TECNOLOGIA

Sapienstone è il brand di Iris Ceramica Group specializzato in superfici ceramiche esclusive di grande formato. Ispirandosi al mondo della moda, unisce la tradizione artigianale all'innovazione contemporanea attraverso superfici uniche che incarnano l'essenza del design su misura, ridefinendo il concetto di lusso nelle cucine e nei progetti di interior design

Innovazione e Tecnologia: Il brand si distingue per la tecnologia "a tutta massa" (full-body), dove le venature attraversano lo spessore del materiale, e per l'innovativa "Ceramica 4D" di Iris Ceramica Group, che dona ulteriore profondità e realismo alle superfici.

GRAFICA DI ALESSANDRA DI DEMETRIO

A photograph of a wall and floor made of marble. The wall is composed of large rectangular tiles with a complex, multi-colored pattern of brown, orange, grey, and white veins. The floor in the foreground shows a similar pattern, with some tiles having a more pronounced orange and brown color scheme. The lighting is soft, highlighting the natural texture and variations in the stone.
